**DISTINGUISHING FEATURES OF THE CLASS:** The work involves responsibility for conducting investigations to determine the location and financial status of individuals legally responsible for the support of welfare recipients. This position involves verifying the absence of a legally responsible relative from a household, locating the individual and assessing the possibility of obtaining reimbursement of funds for a social service agency. This position differs from that of Social Service Investigator in that there is no responsibility for fraud investigation. The work is performed under general supervision from either a higher level investigator or the Coordinator of Child Support Enforcement allowing incumbents considerable leeway in carrying out specific tasks. Assignments made to employees in this class will require transportation to meet field work requirements made in the ordinary course of business in a timely and efficient manner. Does related work as required.

**SUBJECTS OF EXAMINATION:** A written test designed to evaluate knowledge, skills, and/or abilities in the following areas:

**1. Advising and interacting with others**

These questions test for the ability to interact with other people in order to gather and present information and to provide assistance and advice in a courteous and professional manner.

**2. Arithmetic reasoning**

These questions test your ability to solve an arithmetic problem presented in sentence or short paragraph form. You must read the problem, understand the situation presented, decide what must be done to solve it, and apply the appropriate arithmetic operation(s) in the appropriate order, in order to determine the correct answer. Knowledge of addition, subtraction, multiplication, and division will be necessary. Questions may also involve the use of percents, decimals, and fractions. You should bring with you a hand-held battery- or solar-powered calculator for use on this test. You will not be permitted to use the calculator function of your cell phone.

**3. Interviewing**

These questions test for knowledge of the principles and practices employed in obtaining information from individuals through structured conversations. These questions require you to apply the principles, practices, and techniques of effective interviewing to hypothetical interviewing situations. Included are questions that present a problem arising from an interviewing situation, and you must choose the most appropriate course of action to take.

**4. Preparing written material**

These questions test for the ability to present information clearly and accurately, and to organize paragraphs logically and comprehensibly. For some questions, you will be given information in two or three sentences followed by four restatements of the information. You must then choose the best version. For other questions, you will be given paragraphs with their sentences out of order. You must then choose, from four suggestions, the best order for the sentences.

**Candidates are ALLOWED to use quiet, hand-held, solar or battery powered calculators.**
