DISTINGUISHING FEATURES OF THE CLASS:

The class of positions is located in the Motor Vehicle Bureau of the County Clerk's Office, and involves responsibility for the review and processing of all types of transactions relating to the licensing of drivers of all types of motor vehicles as well as the registration of such vehicles. The work is carried out in accordance with strictly-defined procedures and regulations as set by the State, and involves determining eligibility for driver licenses and vehicle registrations through a review of application forms and supporting documents; computing and receiving applicable fees and taxes for the transactions; and processing the transactions with speed and a high degree of accuracy through a State computer network accessed by a standard keyboard. Although the procedures followed are mainly learned through on-the-job training, new employees must possess the ability to understand, remember, and interpret and apply specific laws, rules, regulations, and procedures pertaining to the issuance of licenses and registrations for motor vehicle operation and ownership. Work is performed under the direct supervision of a Senior Motor Vehicle Clerk, with some leeway allowed the incumbent for the exercise of independent judgment in the processing of those transactions that are routine, but with assistance being available for processing those that are either unusual or more complicated. Supervision of subordinates is usually not a feature of this class of positions. Does related work as required.

SUBJECTS OF EXAMINATION: A written test designed to evaluate knowledge, skills, and/or abilities in the following areas:

1. Cashiering Principles and Practices

These questions are designed to test for an understanding of such things as proper cashiering practices; terminology; and cashiering issues pertaining to currency, checks and other negotiable instruments.

2. Name and number checking

These questions test for the ability to distinguish between sets of words, letters, and/or numbers that are almost exactly alike. Material is usually presented in two or three columns, and you will have to determine how the entry in the first column compares with the entry in the second column and possibly the third. You will be instructed to mark your answers according to a designated code provided in the directions.

3. Public contact principles and practices

These questions test for knowledge of techniques used to interact with other people, to gather and present information, and to provide assistance, advice, and effective customer service in a courteous and professional manner. Questions will cover such topics as understanding and responding to people with diverse needs, perspectives, personalities, and levels of familiarity with agency operations, as well as acting in a way that both serves the public and reflects well on your agency.

4. Understanding and interpreting written material

These questions test for the ability to understand and interpret written material. You will be presented with brief reading passages and will be asked questions about the passages. You should base your answers to the questions **only on what is presented in the passages and not on what you may happen to know about the topic.**

Candidates are ALLOWED to use quiet, hand-held, solar or battery powered calculators.

However, candidates may find information in the publication "How to take a written test" helpful in preparing for this test.
