Supervision of others is not normally a responsibility of this position. Does related work as required.

SUBJECTS OF EXAMINATION: A written test designed to evaluate knowledge, skills, and/or abilities in the following areas:

1. Data collection

These questions test for a knowledge of the variables that are collected for residential, commercial, vacant and farm properties. Hypothetical situations may be used to test for candidate knowledge, skill, and ability in this area. The majority of these questions are based on the terms, concepts, and principles of data collection that are contained in the Department of Taxation and Finances' data collection manuals which can be found at www.tax.ny.gov/research/property/assess/manuals/assersmanual.htm

2. Educating and interacting with the public

These questions test for knowledge of techniques used to interact effectively with individuals and/or community groups, to educate or inform them about topics of concern, to publicize or clarify agency programs or policies, to negotiate conflicts or resolve complaints, and to represent one's agency or program in a manner in keeping with good public relations practices. Questions may also cover interacting with others in cooperative efforts of public outreach or service.

3. Preparing written material

These questions test for the ability to present information clearly and accurately, and to organize paragraphs logically and comprehensibly. For some questions, you will be given information in two or three sentences followed by four restatements of the information. You must then choose the best version. For other questions, you will be given paragraphs with their sentences out of order. You must then choose, from four suggestions, the best order for the sentences.

4. Real property terminology, documents and forms

These questions test for a knowledge of terminology, documents, and forms pertaining to real property. While some questions ask for only straight definitions, others are situational questions which require the use of real property terms to determine the answer to the questions.

5. Understanding and interpreting written material

These questions test for the ability to understand and interpret written material. You will be presented with brief reading passages and will be asked questions about the passages. You should base your answers to the questions only on what is presented in the passages and not on what you may happen to know about the topic.

Candidates are ALLOWED to use quiet, hand-held, solar or battery powered calculators.

However, candidates may find information in the publication "How to take a written test" helpful in preparing for this test.
