

Steuben County Bath Landfill

SAFETY REQUIREMENTS:

1. All employees, contractors and persons accessing the landfill shall wear high visibility clothing or vests, except for residential customers accessing the residential drop off and recycling areas. The County will maintain a stock of high visibility vests to be provided to persons who do not have high visibility clothing or vests.
2. Customers must follow the directions of Landfill staff, both verbal and non-verbal when using the site.
3. Customers must follow all signage for traffic flow, designated drop off areas, etc.
4. Non-essential persons and children are to remain in the vehicle on the working face. Essential persons are to remain within an approximate 6' radius of their vehicle.
5. After unloading, all persons are required to pull away from working face to a safe area to clean, inspect vehicles and organize tarps and accessories.
6. All persons leaving their vehicles shall maintain eye contact with the equipment operators, there are many blind spots and equipment operators may not be able to see you. Do not approach machinery until the operator makes eye contact and indicates that it's safe to approach.
7. Scavenging is prohibited.
8. Be advised that operating conditions on the working face change daily and rules, signage, etc. are subject to modification.
